

I'm in the Army during my off time I listen to XM b/c the local fm and am stations in my area play music thats being overplayed or I don't really get a reception being in the middle of Knox doing missons. The Satellite radio really changed my life and I wish to see it continue, if they were to extend their services to those serving in Iraq that would be great as many miss the music that they listened to back home and that the cd players get chewed up by the sand every so often, please don't take away a soldiers amenmity
Thank you,

PFC Tyler Tonaki
